

# **Barrett M82**

## **How to Install ?**

### **FiveM :**

**Create a folder, place another folder called "stream" and a resource.lua in the folder you created. Then put the gun files into the stream folder and start it in your server.cfg**

### **Singleplayer :**

**Grand Theft Auto V\mods\x64e.rpf\models\cdimages  
\weapons.rpf\**

**Drag and drop into this folder. (Make sure to toggle it to a mods folder so it doesn't overwrite the original files).**
